

As an Indiana citizen, I want to speak out against proceeding 02-278. I am very satisfied with our State's Do Not Call Law and know that the effectiveness of this law will be diminished with preemption from the federal law. You or the banks don't pay my monthly phone bill. So, I should have my say in who I want to call and whom I want calling me.

I have never had any problem since being on the Do Not Call List with my banking business. I can call my bank and they have 18 months to call me. That is satisfactory to me. Just the bank replying not their choice of telephone solicitors.

This is a ruse so that the banks can make more money and we, as their customers, lose the privacy of our phone and home/family time. When I want to buy or purchase a service from a company I like the freedom of calling them on my time, not theirs. And when I do call, that company has three months to call me.

I get upset now with all the calls I get bugging me for donations and wanting money. Indiana people are content with their No Call List and greedy people just have to ruin it.
